

## Reminder: Change to Amount Outstanding Minimum for Chinese Government Bonds in FTSE Fixed Income Indexes

In March 2021, FTSE Russell **announced** a change to the amount outstanding minimum for CGBs to enhance the liquidity profile and replicability of the index. Effective with July 2021 profiles, the amount outstanding threshold for CGBs issued before 01 January 2020 will be increased to CNY 100 billion from the current CNY 35 billion in the FTSE China Government Bond Index (CNYGBI), the FTSE China Government and Policy Bank Bond Index (CNYGPBI), the FTSE Emerging Markets Government Bond Index (EMGBI) and indexes that derive their membership from them.<sup>1</sup> The amount outstanding threshold for CGBs issued on or after 01 January 2020 will remain at CNY 35 billion. As a result of the change, 30 bonds with CNY 2.54 trillion in market value representing 21% of the CNYGBI are projected to exit the index. Additional details on the projected impact of this change can be found in Figures 1 and 2.

To ensure that more comprehensive coverage of this asset class remains available as part of the FTSE fixed income index product offering, there will not be a change to amount outstanding for CGBs in the FTSE CNY Broad Bond Index (CNYBBI).

As a reminder, FTSE Russell **announced** that CGBs will be added to the FTSE World Government Bond Index (WGBI) effective with the November 2021 profiles and phased in over a 36-month period. Updated details on the projected impact and the changes that users can anticipate in index data files will also be made available in the coming weeks.
